ROTH EXTENDS DWT PRODUCT WARRANTY

SYRACUSE, NY; JANUARY 27, 2012: Roth Industries, Inc., a world leader in environmentally-friendly products that produce distribute and store energy for the most efficient homes and buildings, is pleased to announce it has extended the warranty on its double-wall oil storage tanks.

To highlight the high quality construction of its DWT oil tank, Roth Industries has extended its current warranty policy to a 30-year limited warranty. This warranty change covers failure of the tank due to workmanship or material defects as well as failure of the internal tank due to internal corrosion (the manner in which all steel tanks fail). The warranty also includes \$2M of insurance against property damages caused by spill.

"We have a great brand," said Joe Brown, Senior VP Sales & Marketing, "Roth's customers are extremely loyal and they demand the best. Our DWT is manufactured with the finest materials available - and we back it with a warranty that shows people we are committed to providing performance, durability and value." Brown went on to say "This warranty upgrade is a reflection of our commitment to delivering high quality, high

performance products. Contractors will benefit from knowing that they can stand with confidence behind every installation of the Roth double-wall oil tank and homeowners will benefit from knowing that their installed oil tanks are warranted for 30-years, adding significant value to their home.” Over the last 40 years, Roth has sold over 5.4 million tanks nationwide.

About Roth Industries, Inc.

Roth, a family owned business established in Germany over 60 years ago has locations in over 40 different countries, \$250 million in sales and 1100 employees. Roth entered the North America market in 1997 and operates two manufacturing plants, both in upstate NY. Roth specializes in environmentally-friendly products that produce, distribute and store energy such as domestic hot water solar and geothermal heat pumps, radiant floor heating and PEX-c plumbing systems, septic, cistern, rainwater collection and oil storage tanks.
