1" x 100', Bag of 10x 20'

Mission

Roth has been a growing part of the heating industry with innovative products such as the famous Double-Wall Oil Storage Tanks as well the unique DuoPex S5, a five layer PEX-c tube. Roth has shown its commitment to the North American market by building a production facility in Watertown, NY and by constantly offering new, innovative, environmentally friendly products. Our goal is it to be the sole solution for a homeowner in terms of environmentally friendly buildings.
